Did you know that...

Today, 12% of the members of national legislative bodies worldwide are women?

Canadian co-operators and the Centre for Micro-Finance in Nepal are turning women's credit unions into 'schools of democracy,' with civic education programs to help over 20,000 low caste, tribal women and their families learn about their new democracy. With knowledge and confidence they will join in public debates to shape Nepal's new constituent assembly and constitution.

Canadian Co-operative Association

WE ARE MAKING A DIFFERENCE.
TOGETHER.
